CERTIFIED PRACTISING ACCOUNTANTS

Bookkeeping

The Bookkeepers role in your business is very important. The accounting role relies heavily on the correctness of the data that the Bookkeeper creates.

New laws are now in force that state that the Bookkeeper you use to prepare your BAS, at the very least needs to be a registered BAS agent and registered with the Tax Practitioners Board if they charge you a fee.

Paid employees providing BAS services to or for employers do not need to be registered with the Board.

As registered Tax Agents, we are able to provide all your accounting, taxation and bookkeeping needs.

We offer many bookkeeping solutions, so contact us to customise a bookkeeping process for you.
